Dear Sir:

Applicants received a Notification of Missing Requirements Under 35 U.S.C. 371, and note that the U.S. Patent and Trademark Office has received and thus the National Stage file contains a copy of the International Search Report and copies of the references cited in the International Search Report. Applicants understand that

Serial No.: 09/980,154

pursuant to MPEP 1893.03(g), the Examiner will consider the references cited in the International Search Report, without any further action by Applicants under 37 CFR 1.97 and 1.98. Because there is no requirement for the Examiner to list the references cited in the International Search Report, Applicants will understand that the Examiner has in fact considered the references cited in the International Search Report.

Respectfully submitted,
